<a href="#">^</a> <a href="#">_</a>	BFY 2	de Villiers, Pierre Loiseleur. <i>Novvm IESV Christi Testamentum Graece et Latine: Theodoro Beza interprete. Additae sunt ab eodem summae breues doctrinae vnoquoque Euangeliorum et Actorum loco comprehensae. Item, Methodi Apostolicarum epistolarum breuis explicatio. Huic autem, quintae editioni, praeter multorum locorum recognitionem, accesserunt breues difficiliorum phraesewn expositiones, et aliae quaedam annotationculae, eum ex maioribus ipsius Bezae annotationibus, tum alitinde excerptae.</i> Aventicensis: [ex Libris AD Mottet], 1604.							[printer's device: has the Stephanus device of a man standing under an olive tree and trimming it] [no publisher, but a date of 1604, but a publisher is written in - but unlikely - but the preface is signed "Loselerius Villerius".] At e-rara ... [a different copy. Publisher alledged to be [Matthieu Berjon]. Villiers did not sign the end of the Preface, but the symbol is the same. All the rest of the book appears to be exactly the same as the above links, so I am treating both as different copies of the same text. In this copy the publisher: "ex Libris AD Mottet" is written on the cover page by hand script, but, also written in hand script is the date: 1759, even though the Printed text is 1604, although, there is an unnatural amount of space between the 'M' and the 'D' in the date.]

979-8-89219-008-4	HTML	Bibliographic Index of Print Editions of the Greek New Testament Listed by Editor (1514-2023)

## Endnotes

<sup>i</sup> All URL links were accessed: 13 December, 2023. All were functional except those for the British Library, which, in 2023, has suffered a large cyber-attack. I left these links with the confidence that, eventually, the British Library will recover, and their links will again become live

<sup>ii</sup> Editor's Note: Some editions have 'Septuagint' in the title, but that does not necessarily mean that the Greek New Testament is missing. Some editions listed are multivolume sets and the catalogue records are incomplete, so, without access to the physical books, I have no way to determine which have a volume containing the Greek New Testament and which do not. So, I included just about everything and this list may include a few false positives. This issue will have be sorted out in the future.

<sup>iii</sup> EEBO = Early English Books Online, which is accessible at research libraries who subscribe to that service

<sup>iv</sup> To give some sense of coverage: Horne (1877), section IV and V, p. 684-719, has reviewed 104 editions. This work contains 1,916 editions, or, approximately, 320 unique editions - the term 'unique editions' meaning, the rather subjective determination of a unique combination of: unique editor and unique title, and unique publication date.

<sup>v</sup> Alternate Formats are available on: Internet Archive, Google Books and Libgen. All are Public Domain and free.
